Acceptable Use Policy Ballyvary Central NS

The aim of this Acceptable Use Policy (A.U.P.) is to ensure that students will benefit from learning opportunities offered by the school's Internet resources in a safe and effective manner. Internet use and access is considered a school resource and privilege. Therefore, if the school A.U.P. is not adhered to this privilege will be withdrawn and appropriate sanctions – as outlined in the A.U.P. – will be imposed.

The policy applies to the use of Internet and technology resources while on school premises and the use of any school resources that can be accessed outside of school. This policy also provides guidelines to parents on the safe use of technology in the home.

It is envisaged that school and parent representatives will revise the A.U.P. regularly and update if deemed necessary. The School reserves the right to amend this policy from time to time entirely at its discretion.

The A.U.P. should be read carefully to ensure that the conditions of use are accepted and understood. It is assumed that the parent accepts the terms of the A.U.P. unless the school is specifically notified.

This policy was presented to the Board of Management in **September 2020**

This policy was presented to the Parents in **September 2020**

The Policy will be reviewed again in September 2021 or before this date if deemed necessary.

The School's Strategy

Ballyvary Central NS employs a number of strategies in order to maximise learning opportunities and reduce risks associated with the Internet. These strategies include, but are not limited to the following:

- ❖ The School uses G-Suite as a learning platform in fourth, fifth and sixth class.
 - Students and teachers will be given a G Suite Account for Education ending in @ballyvaryns.ie.
 - Student Accounts will be limited to educational apps such as Google Classroom, Google Docs and Slides.
 - Students will not have access to Gmail or hangouts as these apps would be difficult to monitor. All activity will be monitored continuously by staff and any student misusing their account in any way will have their G-suite account suspended.
 - The e-Learning Coordinator (Annette Timothy) will regularly monitor the usage of G-Suite by students and staff in all areas, in particular message and communication tools and publishing facilities.
 - students/staff will be advised about acceptable conduct and use when using G-Suite.
 - Only members of the current student, parent/carers and staff community will have access to the School's G-Suite account
 - All users will be mindful of copyright issues and will only upload appropriate content.
 - When staff, students, etc. leave the school their account or rights to specific school areas will be disabled, deleted or transferred to their new establishment.
 - Any concerns about content on G-Suite accounts may be recorded and dealt with in the following ways:
 - The user will be asked to remove any material deemed to be inappropriate or offensive.
 - The material will be removed by the site administrator if the user does not comply.
 - Access to G-Suite for the user may be suspended.
 - The user will need to discuss the issues with the Principal before reinstatement. A student's parent/guardian may be informed.
- ❖ A firewall is used on school devices to minimise the risk of exposure to inappropriate material and to block unsuitable sites. This is regularly updated.
- ❖ Students and teachers will be provided with training by teachers in the area of digital technology.
- ❖ Online safety training will be provided to teachers and will be taught to all students.
- ❖ Uploading and downloading of non-approved software on school devices will not be permitted.
- ❖ Virus protection software is used on school devices and updated regularly.

- ❖ A teacher will always supervise Internet sessions which are conducted on school devices.
- ❖ Websites will be previewed / evaluated by a teacher using a filtering system, before being integrated into lessons conducted on school devices.
- ❖ It is important to note that the school's Anti-Bullying Policy should be read in conjunction with this Policy. Parents/Guardians and students should be aware that placing a once-off, offensive or hurtful internet message, image or statement on a social network site or other public forum where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying behaviour.

Guidelines for Students

- ❖ Please ensure that online messages and comments to the school are respectful. Any messages written on social media are treated in the same way as written messages to the school.
- ❖ Avoid any negative conversations about children, staff, or parents on social media accounts.
